📁 PROJECTS

Zara App (clone)

12/2022

[Link](#) [Github](#)

- It's a E-Commerce website where user search different products,
- Tried to clone zara.com, where user can buy products,
- Made functionality in that user can add products into cart and order,
- It was an individual project

Tech-Stack: HTML, CSS, javascript.

Unbounce (clone)

08/2022

[Link](#) [Github](#)

- Unbounce helps to build your own business and help to build landing pages,
- cloned unbounce.com to show our skills in html CSS and javascript
- worked on multiple pages of this website

Area of Responsibility :

- worked on Pricing page in that I have shown prices for monthly as well as yearly so user can register according to his need

Tech-Stack: HTML, CSS, javascript

👜 WORK EXPERIENCE

Trainee Engineer

01/2021 – 12/2021 | Aurangabad

Supervisor for one production line, I had to manage workers by their speciality, Checking the status of production, Making reports.

Inward Quality Engineer

07/2020 – 12/2020 | Aurangabad

I had to check what the products coming from different industries. Also had to check quality of product
